(5) None of the above

3. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

4. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

5. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

6. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

7. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

8. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

9. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

10. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

11. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

12. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

13. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

14. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

15. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

16. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

17. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

18. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

19. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

20. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

21. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

22. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

23. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

24. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

25. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

26. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

27. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

28. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

29. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

30. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

31. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

32. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

33. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

34. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

35. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

36. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

37. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

38. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

39. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

40. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

41. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

42. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

43. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

44. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

45. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

46. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

47. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

48. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

49. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above

50. True or False
(1) The five-point check chart is constructed by plotting points one below another as per the occurrence of the activities.
(2) False
(3) True
(4) None of the above
