Assignment 4

The due date for submitting this assignment has passed. As per our records you have not submitted this assignment.

1. Behavioural based Value Engineering Tools and Techniques includes:
   - Acknowledgement assistance
   - Inquire Team Work
   - Due good human relations
   - All of the above
   No, the answer is incorrect. Score: 0

2. Technical based Value Engineering Tools and Techniques includes:
   - Use standards
   - Simplify
   - Develop less solution, if possible
   - All of the above
   No, the answer is incorrect. Score: 0

3. Common roadblocks to Value Engineering Tools and Techniques include:
   - Lack of information
   - Acceptance of wrong information
   - Wrong belief
   - All of the above
   No, the answer is incorrect. Score: 0

4. The wet and raw based functional definition of influent pump in North Canadian wastewater treatment plant is:
   - Measure flow
   - Lift sewage
   - Monitor process
   - All of the above
   No, the answer is incorrect. Score: 0

5. Which of the following pertains to the basic function in North Canadian wastewater treatment plant?
   - Influent pump
   - Clarification facilities
   - Effluent removal
   - Screening
   No, the answer is incorrect. Score: 0

6. The wet and raw based functional definition of Clarification facilities in North Canadian wastewater treatment plant is:
   - Remove trash
   - Dissolve effluent
   - Devalue odour
   - Blend stage
   No, the answer is incorrect. Score: 0

7. Most desirable creative idea before proceeding to the judgment phase of North Canadian wastewater treatment plant is:
   - Do proto-type test adjacent to phase I
   - Reduce size of effluent tanks
   - Collect data
   - All of the above
   No, the answer is incorrect. Score: 0

8. Primary function of table top in optimisation of computer work station is:
   - Hands assembly
   - Hands material
   - Provide surface
   - Provide movement
   No, the answer is incorrect. Score: 0

9. Parametrical considered in evaluation phase during value engineering study of computer work station is:
   - Rigidity
   - Light weight
   - Accessibility
   - All of the above
   No, the answer is incorrect. Score: 0

10. Reasons for poor voice in a production component part is:
    - Lack of raw
    - Lack of information
    - Microscopics
    - All of the above
    No, the answer is incorrect. Score: 0
