Assignment 6

The due date for submitting this assignment is pasted.

An assignment that was not submitted cannot be submitted again.

---

1. The system showing force in a system is shown in figure below.

   The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

   The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

2. The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

   The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

3. The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

   The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

4. The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

   The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

5. The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

   The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

6. The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

   The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

7. The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

   The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

8. The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

   The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

9. The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

   The system showing force in a system is shown in figure below.

   \[ \begin{align*}
   \sum F_x &= m_1 a_1 \\
   \sum F_y &= m_2 a_2
   \end{align*} \]

10. The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]

    The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]

---

11. The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]

    The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]

12. The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]

    The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]

13. The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]

    The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]

14. The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]

    The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]

15. The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]

    The system showing force in a system is shown in figure below.

    \[ \begin{align*}
    \sum F_x &= m_1 a_1 \\
    \sum F_y &= m_2 a_2
    \end{align*} \]
