Assignment 1

Date on 2018-09-11, 23:59 CDT

1. The reaction energy of reaction (a) is
   A. Enthalpy of formation of reactants
   B. Enthalpy of formation of products
   C. Enthalpy of reaction
   D. Enthalpy of formation of reactants and products

2. The energy change in reaction (b) is
   A. Enthalpy of formation of reactants
   B. Enthalpy of formation of products
   C. Enthalpy of reaction
   D. Enthalpy of formation of reactants and products

3. The reaction energy of reaction (c) is
   A. Enthalpy of formation of reactants
   B. Enthalpy of formation of products
   C. Enthalpy of reaction
   D. Enthalpy of formation of reactants and products

4. The reaction energy of reaction (d) is
   A. Enthalpy of formation of reactants
   B. Enthalpy of formation of products
   C. Enthalpy of reaction
   D. Enthalpy of formation of reactants and products

5. The reaction energy of reaction (e) is
   A. Enthalpy of formation of reactants
   B. Enthalpy of formation of products
   C. Enthalpy of reaction
   D. Enthalpy of formation of reactants and products
