Assignment 2

1. Find the bond length in an atomic lattice in the following situation.

2. Find the bond length in an atomic lattice in the following situation.

3. Find the bond length in an atomic lattice in the following situation.

4. Find the bond length in an atomic lattice in the following situation.

5. Find the bond length in an atomic lattice in the following situation.

6. Find the bond length in an atomic lattice in the following situation.

7. Find the bond length in an atomic lattice in the following situation.

8. Find the bond length in an atomic lattice in the following situation.

9. Find the bond length in an atomic lattice in the following situation.

10. Find the bond length in an atomic lattice in the following situation.

11. Find the bond length in an atomic lattice in the following situation.

12. Find the bond length in an atomic lattice in the following situation.
