    - High research interest
    - High research interest
    - High research interest
    - High research interest

13. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

14. While performing an experiment we are facing some issues with the setup we are testing with. We are running out of time, so it is advisable to alter:
    - Results gathered from the setup by directly changing the data obtained, to try to match them with the theoretical results.
    - Yes, because time is precious
    - Never, because it is unethical
    - Sometimes, when we feel that we will get the same result
    - Always, because the setup in the lab experience takes a lot of chances.

15. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

16. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

17. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

18. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

19. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

20. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

21. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

22. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

23. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

24. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

25. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

26. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

27. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

28. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

29. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

30. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

31. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

32. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

33. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

34. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

35. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

36. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

37. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

38. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

39. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.

40. The answer is incorrect. There are some fundamental concepts that their peers (literature, etc.) may have.
