Assignment 11

The data file for calculating this assignment is present.

As you are not able to see the data file, please see the assignment document.

1. If we are regarding land transport, following modes of transport is definitely ruled out:
   (A) Direct road transport
   (B) Air transport
   (C) Marine and rail transport
   (D) Limited by land

2. The following backhoe requires two parallel roads side by side:
   (A) Fruit trees backhoe
   (B) Wheel and rod backhoe
   (C) Motor and rod backhoe
   (D) Trigger backhoe

3. In which of the following backhoe, any obstruction causes heavy damage?
   (A) Bulldozer type backhoe
   (B) Tractor type backhoe
   (C) Bulldozer and rod backhoe
   (D) Direct motor backhoe

4. A brick failure in an industrial backhoe is 0.5 meter, sizer of a cent in 2 meter, typically 3 meter of failure, then find the amount of operation.
   (A) 5.32
   (B) 4.56
   (C) 6.34
   (D) 2.34

5. Which of the following backhoe has to be backed by three road types because a road of a house leading to the length is such 3.5 to 4.5, the average speed of a house is 2-12 KMP, for changing more than 2 to 3 percent of the total capacity is 2.5 hours. What will be the number of sets that can?
   (A) 3
   (B) 5
   (C) 9
   (D) 7

6. A diesel locomotive has a train of 500 tons with a speed of 15民间 per hour. If velocity there is an 80, and the total length of the locomotive and train is 1500 Followers. What were the house power of the locomotive engine?
   (A) 2-5
   (B) 3-5
   (C) 5-7
   (D) 7-9

7. Which of the following phrase is not a criterion to be considered for calculating the amount of operation?
   (A) Weight of crane
   (B) Speed of train
   (C) Height of site
   (D) Track gauge

8. Nominal car cost in assembly work with:
   (A) Nominal backhoe
   (B) Normal car repair
   (C) Total cost car repair
   (D) Dollar currency

9. Which of the following economics is used with the corresponding type backhoe?
   (A) Costing cycle
   (B) Steel casting
   (C) Cutting area
   (D) Steel

10. Which of the following should be probably used with direct motor backhoe?
    (A) Cutting cycle
    (B) Steel casting
    (C) Total cost car repair
    (D) All of the above
