Assignment 2

Unit 4 - Week 2

Due on 2026-09-30, 21:00:00

1. Match the following:
   - [1] Yellowing paint
     - (A) Materials from organic paint
   - [2] Oily stain
     - (B) Leaking from tap
   - [3] Finger paint
     - (C) Painting with brushes
     - (D) Paint"s drying point

2. Match the following:
   - [1] Clay
     - (A) Granulated inorganic substances
     - (B) Materials that are broken due to shocks
   - [3] Ductile
     - (C) Materials that are broken due to impacts

3. Match the following:
   - [1] Pink
     - (A) Granulated inorganic substances
   - [2] Oily stain
     - (B) Materials that are broken due to impacts
   - [3] Yellowing paint
     - (C) Materials from organic paint

4. Match the application process of the following raw materials:
   - [1] Clay (A) Granulated inorganic substances
     - (B) Painting with brushes
   - [2] Graft (C) Materials that are broken due to impacts
     - (D) Granulated inorganic substances

5. Match the following:
   - [1] Clay
     - (A) Granulated inorganic substances
     - (B) Materials that are broken due to impacts
   - [3] Ductile
     - (C) Materials that are broken due to shocks

6. Match the following:
   - [1] Oily stain
     - (A) Granulated inorganic substances
   - [2] Yellowing paint
     - (B) Materials from organic paint
   - [3] Finger paint
     - (C) Painting with brushes

7. Match the following:
   - [1] Clay
     - (A) Granulated inorganic substances
   - [2] Oily stain
     - (B) Materials that are broken due to impacts
   - [3] Yellowing paint
     - (C) Materials from organic paint

8. Match the following:
   - [1] Pink
     - (A) Granulated inorganic substances
   - [2] Oily stain
     - (B) Materials that are broken due to shocks
   - [3] Yellowing paint
     - (C) Materials from organic paint
