Assignment 3

The due date for submitting this assignment has passed. As per our records, you have not submitted this assignment.

1. Class: _________ and homework title: _________

2. What is the impact of glass which gives the edge of a glass sheet a pleasant curve?
3. Which of the following statements are correct?
   a. Glass is an insulator.
   b. Glass can be used in nuclear reactors.
   c. Glass is a conductor.
   d. Glass can be used in solar panels.

3. What is the correct number of significant figures for the following?
   a. 123.456
   b. 0.000123456
   c. 123
   d. 123456

4. Which of the following statements about glass are correct?
   a. Glass is a natural material.
   b. Glass is a synthetic material.
   c. Glass can be produced from sand.
   d. Glass cannot be produced from sand.

5. What is the correct number of significant figures for the following?
   a. 0.000123456
   b. 123.456
   c. 123
   d. 123456

6. Which of the following statements about glass are correct?
   a. Glass is a natural material.
   b. Glass is a synthetic material.
   c. Glass can be produced from sand.
   d. Glass cannot be produced from sand.

7. Which of the following minerals are used in the production of glass?
   a. Quartz
   b. Feldspar
   c. Mica
   d. Clay

8. Which of the following statements about glass are correct?
   a. Glass is a natural material.
   b. Glass is a synthetic material.
   c. Glass can be produced from sand.
   d. Glass cannot be produced from sand.

9. Which of the following minerals are used in the production of glass?
   a. Quartz
   b. Feldspar
   c. Mica
   d. Clay

10. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

11. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

12. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

13. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

14. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

15. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

16. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

17. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

18. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

19. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

20. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

21. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

22. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

23. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

24. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

25. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

26. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

27. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

28. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

29. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

30. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

31. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

32. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

33. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

34. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

35. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

36. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

37. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

38. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

39. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

40. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

41. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

42. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

43. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay

44. Which of the following statements about glass are correct?
    a. Glass is a natural material.
    b. Glass is a synthetic material.
    c. Glass can be produced from sand.
    d. Glass cannot be produced from sand.

45. Which of the following minerals are used in the production of glass?
    a. Quartz
    b. Feldspar
    c. Mica
    d. Clay
