## Week 2: Creating LeDs

## Week 2: Interactive Videos

## Week 3: Creating LbDs and LxTs

- A. Yes
- B. No

No, the answer is incorrect.

Score: 0

Feedback:

**Feedback:** *Although all the above features are essential for the creation of a MOOC, it will not be considered as a Learner-Centric MOOC as the initiative to use all these features is left to learners. A Learner-Centric MOOC needs to go beyond these features and needs to provide opportunities for micro-application wherein learners immediately get to apply their knowledge. Learners are also able to extend their knowledge along diverse paths and learn from their peers. Refer LeD1.2: Why LCM? for detailed discussion on learner-centricity of MOOCs.*

Accepted Answers:

B. No

3) One of the challenges in creating a MOOC is the funnel of participation. This means: **1 point**

- A. Having access to a studio for recording lectures.
- B. Providing interesting materials for all participants.
- C. Addressing the attrition of participants as the MOOC progresses.
- D. Finding sufficient TAs for grading assignments of the participants.

No, the answer is incorrect.

Score: 0

Feedback:

**Feedback:** *The funnel of participation refers to the attrition in the number of learners that happens in a MOOC, from registration to its completion.*

Accepted Answers:

C. Addressing the attrition of participants as the MOOC progresses.

4) Which of the following is NOT an element of the LCM Model: **1 point**

- A. Learning Dialogues
- B. Orchestration
- C. Learning by Doing
