The due date for submitting this assignment has passed.
As per our records you have not submitted this assignment.

Due on 2020-02-12, 23:59 IST.

Instructions:

In Week 2, you are provided with 3 LxT resources (LxT 2.1, 2.2 and 2.3) and three AQs corresponding to each of these resources. You are most welcome to go through all these resources provided in Week 2; however, you need to do ONLY ONE OUT OF THE THREE QUIZZES (AQs) for grading purposes.

This AQ is based on **LxT 2.1** (https://onlinecourses.nptel.ac.in/noc20_ge12/unit?unit=48&lesson=53) . Hence, please take this AQ in case you have accessed **LxT 2.1** (https://onlinecourses.nptel.ac.in/noc20_ge12/unit?unit=48&lesson=53) . You will need to answer all questions to be able to submit the quiz.

You may attempt the quiz multiple times; however, the last quiz score, attempted before the deadline, will be considered for final grading.

1) Which of the below mentioned application(s) are useful for screen recording? **1 point**

- A. Zoom Recorder
- B. Viacom Bamboo
- C. BB Flashback Express
- D. Adobe Premiere Pro

No, the answer is incorrect.
Score: 0

Feedback:

Feedback: *BB Flashback Express is a useful tool for screen recording. Zoom Recorder is used for audio recording, and Adobe Premiere Pro is a video editing software. Viacom Bamboo is a writing tablet, and not a hardware.*

Accepted Answers:

C. *BB Flashback Express*

2) What is the limitation of the Zoom H1 recorder? **1 point**

- A. It cannot work alone. It needs an additional music interface.
- B. It cannot be used in a noisy environment because of its sensitivity towards noise
- C. It can be used only for TableTop audio recording
- D. It can be used for audio recording only for entertainment purposes.

No, the answer is incorrect.
Score: 0

Feedback:

Feedback: *B is correct. Zoom H1 recorder is very much suited for educators. It can be used alone and does not require any additional interface. It is however very sensitive to noise and hence cannot be used to record in a noisy environment.*

- Quiz : RQ based on Lxl for Week 2 (assessment? name=124)
- Weekly Feedback (unit? unit=48&lesson=119)
- Solutions to Practice Questions of Week 2 (unit? unit=48&lesson=162)
- Solutions to Week 2 Graded Quizzes (unit? unit=48&lesson=152)
- Download Videos (unit? unit=48&lesson=155)

Accepted Answers:

B. It cannot be used in a noisy environment because of its sensitivity towards noise

3) Which of the below characteristics make it difficult for teachers to work with video editing software VSDC?

1 point

- A. It is a proprietary software, and requires huge investment
- B. It doesn't have features of multiple tracks like other editors
- C. It doesn't show audio waveforms, making it difficult to synchronise with the video
- D. It doesn't have features like callouts, color enhancements, transitions etc.

No, the answer is incorrect.

Score: 0

Feedback:

The major drawback that limits extensive use of VSDC is the absence of audio waveforms while editing. This limits synchronisation of video with the new audio, particularly when a teacher wants narrations to go over an existing video content. VSDC is a free software, and requires a Windows Operating System to function. The software has features like multiple tracks, callouts, color enhancements, transitions etc.

Accepted Answers:

C. It doesn't show audio waveforms, making it difficult to synchronise with the video
