Assignment 8

Due date: Monday, 25th of November

Week 1:

1. What is a scheme in computer science?
   a. A series of computer instructions
   b. A series of data structures
   c. A series of algorithms
   d. A series of computer programs

2. What is an algorithm?
   a. A series of computer instructions
   b. A series of data structures
   c. A series of algorithms
   d. A series of computer programs

3. What is a data structure?
   a. A series of computer instructions
   b. A series of data structures
   c. A series of algorithms
   d. A series of computer programs

4. What is an algorithmic problem?
   a. A series of computer instructions
   b. A series of data structures
   c. A series of algorithms
   d. A series of computer programs

5. What is a data flow diagram?
   a. A series of computer instructions
   b. A series of data structures
   c. A series of algorithms
   d. A series of computer programs

6. What is a computer program?
   a. A series of computer instructions
   b. A series of data structures
   c. A series of algorithms
   d. A series of computer programs

7. What is a computer program?
   a. A series of computer instructions
   b. A series of data structures
   c. A series of algorithms
   d. A series of computer programs

8. What is a computer program?
   a. A series of computer instructions
   b. A series of data structures
   c. A series of algorithms
   d. A series of computer programs

9. What is a computer program?
   a. A series of computer instructions
   b. A series of data structures
   c. A series of algorithms
   d. A series of computer programs

10. What is a computer program?
    a. A series of computer instructions
    b. A series of data structures
    c. A series of algorithms
    d. A series of computer programs

11. What is a computer program?
    a. A series of computer instructions
    b. A series of data structures
    c. A series of algorithms
    d. A series of computer programs

12. What is a computer program?
    a. A series of computer instructions
    b. A series of data structures
    c. A series of algorithms
    d. A series of computer programs

13. What is a computer program?
    a. A series of computer instructions
    b. A series of data structures
    c. A series of algorithms
    d. A series of computer programs

14. What is a computer program?
    a. A series of computer instructions
    b. A series of data structures
    c. A series of algorithms
    d. A series of computer programs

15. What is a computer program?
    a. A series of computer instructions
    b. A series of data structures
    c. A series of algorithms
    d. A series of computer programs
