a) True.
b) False.

Problem 4: The question is multiple-choice type.

a) A laser.
b) An amalgam.
c) A fluorescent bulb.
d) A light bulb.
e) All of the above.

Problem 5: The question is true or false type.

a) True.
b) False.

Problem 6: The question is multiple-choice type.

a) A laser.
b) An amalgam.
c) A fluorescent bulb.
d) A light bulb.
e) All of the above.

Problem 7: The question is true or false type.

a) True.
b) False.

Problem 8: The question is true or false type.

a) True.
b) False.

Problem 9: The question is true or false type.

a) True.
b) False.

Problem 10: The question is yes or no type.

a) Yes.
b) No.

Problem 11: The question is multiple-choice type.

a) A laser.
b) An amalgam.
c) A fluorescent bulb.
d) A light bulb.
e) All of the above.

Problem 12: The question is true or false type.

a) True.
b) False.

Problem 13: The question is true or false type.

a) True.
b) False.

Problem 14: The question is true or false type.

a) True.
b) False.

Problem 15: The question is yes or no type.

a) Yes.
b) No.

Problem 16: The question is true or false type.

a) True.
b) False.

Problem 17: The question is yes or no type.

a) Yes.
b) No.

Problem 18: The question is yes or no type.

a) Yes.
b) No.

Problem 19: The question is yes or no type.

a) Yes.
b) No.

Problem 20: The question is yes or no type.

a) Yes.
b) No.
