Assignment 3

Due on 2019-08-21, 23:59 IST.

Assignment 3

The due date for submitting this assignment has passed. As per our records you have not submitted this assignment.

1) Student feedback during the session can be one of the following:

- Face of the instructor
- The credit load of the semester
- The alignment between the COs and instruction

No, the answer is incorrect. Score: 0.

2) Blended learning has two of these features:

- Face to face interaction is reduced
- All instruction is done online
- All learning materials and instruction materials are made available online
- There is no face to face interaction between the teacher and students

No, the answer is incorrect. Score: 0.

3) The following is not an example of instruction type:

- Flipped clerroom
- Blended learning
- MOOCs
- LMS

No, the answer is incorrect. Score: 0.

4) Choosing different instruction types is an activity that is typically carried out in the following phase of ADDIE.

- Design Phase
- Development Phase
- ImplementPhase
- Any of the above three phases

No, the answer is incorrect. Score: 0.

5) The following is an example of instruction type:

- Flipped classroom
- Using a LCD projector
- Using a smart board
- LMS

No, the answer is incorrect. Score: 0.

6) Which of the following is false when an LCD projector is used to present material in a regular classroom?

- Instructor may simply read from the display leading to demotivation of some students
- Instructions can be included
- Ease of display of complex figures is possible
- Changes to the material presented are not very difficult

No, the answer is incorrect. Score: 0.

7) According to the first principle of Merrill, “reflecting on, discussing and defending newly acquired knowledge and skills” is called:

- Activiation
- Demonstration
- Engagement
- Integration

No, the answer is incorrect. Score: 0.

8) With reference to Continuous Internal Evaluation, which of the following is true?

- All the assessment instruments must necessarily use the same technology
- All the assessment instruments can be used by the same technology
- Different assessment instruments may use different technologies
- All the assessment instruments must use non-matching technologies

No, the answer is incorrect. Score: 0.

9) The summative assessment instruments should be designed to ensure the choice given is:

- Between items at the same difficulty level
- Between the items at the same cognitive level
- Between items related to the same CO and the same cognitive level
- Between items that address the same knowledge element

No, the answer is incorrect. Score: 0.

10) Feedback to students after in CSE assessment will serve these two purposes:

- Helps in designing better summative instruments
- Teaches the errors committed with regard to understanding the concepts and/or in applying the procedures
- Assesses summative assessment of student performance
- Act as feedback toัน the instructor and may guide him to adjust his subsequent instruction

No, the answer is incorrect. Score: 0.

11) Teacher notes the errors committed with regard to understanding the Concepts and/or in applying the Procedures:

- Act as feedback to the instructor and may guide him to adjust his subsequent instruction
